ACADEMIC PROJECTS

Face Recognition Team Leader

The main goal of this project was to develop a Java application for the university in which we could create students' IDs to detect them by face and display all their information.

Quiz Application Team Member

This project was created to assist schools that are unable to obtain Microsoft Teams emails to create an online quiz or assignment.

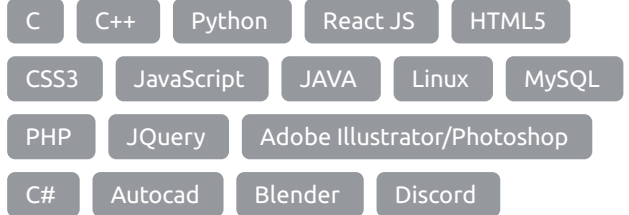

Gym Website Solo

It's a small project to show the design of the main page of a gym website using HTML and CSS only.

The Maze Solo

A game using Unity in which the player must solve a maze to reach the finish line by moving a ball.

SKILLS

PERSONAL PROJECTS

Ether website

- Website for a NFT project from my own perspective
